New York City

Dear Sir:

I note that you designed a medal of Lindbergh given out by his St. Louis backers. Is there any way that we can get two of these medals, one for our Museum and one to send to a collector in France?

I beg to remain

Very truly yours,

Curator

Dear Mr. Kilenyi:

For a number of years, the Medallio Art Company have offered to strike for our museum collection, specimens of the medals which have been issued by them, providing we can obtain permission either from the artist, or the organization responsible for the medal. We should particularly like to have copies of the following medals designed by you: Rudolph Hering medal of the American Society of Civil Engineers; Jamboree medal of Boy Scouts of America; Mountain Lake Golf Club medal; Minnesota State Horticultural Society medal; Wheeling Steel Corporation Exceptional Service medal. If you do not feel that you can authorize the striking of such specimens, will you kindly refer me to the individuals who would have authority to grant this request.

Trusting that we may count on your cooperation, I beg to subscribe myself,

Very truly yours,

Curator.

Dear Mr. Wood:

I have to apologize for not having  
answered your letter till now.

I would like to say  
that it is a real pleasure to me  
to give my consent for striking  
of any of my medals designed by me  
for the Society's collection.

Sincerely yours

Julio Kilenyi

Dear Mr. Kilenyi:

Since you telephoned me yesterday as to whether we knew of any struck medals of five inches or more in diameter, the only ones that I can find were struck from dies made by Muller which were issued by the Chamber of Commerce of New York in 1861 to Robert Anderson and to Adam J. Slemmer, heroes of Fort Sumter and Fort Pickens, respectively. These are in very high relief and measure 6 1/8 inches across. Other than these, I know of no medals much over 4 inches.

Very truly yours,

Curator
